

# MEDICAL SOLUTIONS

We excel at manufacturing complex assemblies and work collaboratively with you to meet the needs of your precision motion control requirements.

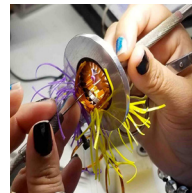

## ABOUT US

We are a Costa Rican manufacturer specializing in complex assemblies that require both machining and highly skilled labor. In 1995, we started with eight employees. Currently, we have over 500. We strive to continue to serve our customers with unparalleled quality and performance while still maintaining our unique style and small company feel.

## MEDICAL APPLICATIONS

We serve a variety of medical applications for customers all over the world. Typical applications include:

- // Surgical Robotics
- // Surgical Power Tools
- // Imaging Equipment
- // Surgical Tables

## Wire Winding

We manufacture stators & rotors for resolvers, synchros, frameless brushless and brush motors, coils, bobbins and brakes.

## Cable & Wire Harness Assemblies

We build cable and wire harness assemblies for a variety of different applications to meet the needs of your specific system requirements.

## And More

We also can manufacture other assemblies for a variety of industries including brush block/slip rings, airflow and temperature sensors, and hydraulic assemblies.

## BECOME A PARTNER.
